 Client accepts bid  
 ↓  
 App message:  
 Do you have a Promo Code?  
 with an entry field.  
 If Promo Code entered  
 validate code, get amount

Trigger PayPal flow.  
 Subtract Promo Code amount from bid + admin fee.  
 e.g. \$100 bid  
 Promo code \$25.00  
 Hold  $\$100 + 10\% - \$25.00$   
 from client so  $\$85.00$   
 Show Assistant, bid accepted for \$100.

Assistant starts + completes Assignment  
 Client clicks Release Payment  
 Revalidate Promo Code  
 - still valid, not used, check amount

Release payment of  $\$100 - 15\% = \$85$  to Assistant

- Send notification to Assistant that paid
- Send notification to Client, "Promo Code AB456 was successfully applied to <Assignment name>"
- Update DB to show promo code used + which Assignment applied to
